

How to Measure & Estimate in Millimeters

Use this Formula to Convert to Sq.ft

mm instructions:

- Take your door/panel/drawer measurement
ie. 1000mm x 900 mm
- Multiply them $1000 \times 900 = 900,000\text{mm}$
- Divide by $645.16\text{mm} = 1395.003''$ sq inches
- Divide by 144" in
- This Example = 9.69 sq ft

in" instructions:

- Take your door/panel/drawer measurement
ie. 39" x 13"
- Multiply them $39 \times 13 = 507''$
- Divide by 144 in
- This Example = 3.52 sq ft
